

ADVANTAGES

- Can be installed in most slide-in filter banks
- Available in 48 or 102 mm (2" or 4")
- Pre-filter with long life and low initial pressure drop
- Lightweight and easy to install

Application	Suitable for most areas Pre-filter for gas turbines, large industrial air compressors, diesel & gas engines, generators & enclosures, wind turbines
Frame	Rigid water resistant cardboard
Media	Cotton/Synthetic
Rec. final pressure drop	250 Pa
Max Temperature (°C)	70°C
Relative Humidity max	100%
Installation Options	Universal frame or clip

Comment

Additional product features:
High mechanical strength
Rigid, reinforced water-resistant cardboard frame
Large media surface
Unique radial pleat design
Bonded into case to eliminate air bypass
Compact
Can be fitted directly to a final filter with external clips
Different clips are available for mounting combinations with different filters.

The 30/30GT® has been setting the standard for T3/G4/MERV 8 panel pre-filters. The combination of the unique media, robust construction and pleating technology makes the Camfil 30/30GT a low pressure drop pre-filter that performs well in all situations
